In the conclusion of this edited paper, please answer the following four questions **in addition** to the five questions you edited from the Pre-Assessment:

1. How has the content covering social justice either supported or changed your authentic knowledge, attitudes, and/or beliefs? Give specific examples from your first journal.
2. What information is apparent in the published work and how do these trends either support or negate your inferences and/or predictions? Give specific examples from the published work.
3. What new knowledge or new understanding have you acquired from the class that you perceive will influence your practice?
4. What did you learn about yourself as a result of doing this paper?
